

Tumult Around the World

Titus Andronicus

Tumult around the world
Tumult around the world
Everywhere, there's someone suffering
Tumult around the world

Everywhere, there's someone hurting
Someone lower on the chain
Everywhere, there's someone using
Their privilege to cause someone pain

Everywhere, there's someone finding
Something isn't really fair
Everywhere, there's someone hiding
From the tumult everywhere

Tumult around the world
Tumult around the world
Everywhere, there's someone suffering
Tumult around the world
Oh yeah

Everywhere, there's someone dying
There's a woman giving birth
Everywhere, there's someone crying
There's tumult around the earth

But everywhere, there's people dreaming
And people holding on to hope
People praying for deliverance
From tumult around the globe

Everywhere, there's someone talking
Tryna put another down
They should run instead of walking
From the tumult all around

Tumult around the world
Tumult around the world
Everywhere, there's someone suffering, oh yeah
Tumult around the world
Tumult around the world

Tumult around the world
Tumult around the world
Everywhere, there's someone suffering
Tumult around the world

Tumult around the world
Tumult around the world
Everywhere, there's someone suffering, oh yeah
Tumult around the world

Tumult around the world
Tumult around the world
Everywhere, there's someone suffering, oh yeah
Tumult around the world

Tumult around the world
(Everywhere, there's someone suffering)
Tumult around the world
(Everywhere, there's someone suffering)
Tumult around the world
(Everywhere, there's someone suffering)
Tumult around the world
(Everywhere, there's someone suffering)
Oh yeah
