Go Down

Tiwa Savage

Go down, boy you know I like it when you go down
Take your time that's how I like it, slow down
I'ma take it off and grind up on it
We gon' be freaky 'til the early morn

She great, baby you the baddest
Wanna see what you got behind it
I'ma be a little more excited
You're too far, you should stay right beside me
Go down
I like it when you go down

Hold me tight like you want this
Hold me tight baby hold my hips
Wanna feel your lips on mine
Dem other boys they can't handle this

The love wey I get for you na waya
The love wey I get nuh fi backfire
One touch I dey get up, boy you dey turn me on

My baby go down, boy you know I like it when you go down
Take your time that's how I like it, slow down
I'ma take it off and grind up on it
We gon' be freaky 'til the early morn

Hey baby, hey baby, baby, you got it, you got it hey
I like it, I like it, wanna get beside and reside with you
Right now, right now, let's get deep down
When you laugh, when you smile, pause it right there

Hold me tight like you want this
Hold me tight baby hold my hips
Wanna feel your lips on mine
Dem other boys they can't handle this

The love wey I get for you na waya
The love wey I get nuh fi backfire
One touch I dey get up, boy you dey turn me on

Now baby, go down, boy you know I like it when you go down
Take your time that's how I like it, slow down
I'ma take it off and grind up on it
We gon' be freaky 'til the early morn

She great, baby you the baddest
Wanna see what you got behind it
I'ma be a little more excited
Too far you should stay right beside me
Go down
I like it when you go down yeah

Hold me tight like you want this
Hold me tight baby hold my hips
Wanna feel your lips on mine
Dem other boys they can't handle this

```
The love wey I get for you na waya
The love wey I get nuh fi backfire
One touch I dey get up, boy you dey turn me on

My baby hold me tight like you want this
Wanna feel your lips on mine

The love wey I get for you na waya
The love wey I get nuh fi backfire
One touch I dey get up, boy you dey turn me on
My baby
```
