

Hold Me Down

Tiwa Savage

I could never forget
When we met the first time
And everybody won't need you
You said I can have you to myself

And now you see me now, right now
Oh I like it
I really like it
Ah huh
Oh I need it
I really need it
Ah huh
Oh I like it
I really like the way you take me high, don't let me fall

You should know by now
Na only you wey fi hold me down
You should know by now
Na only you wey fi hold me down
Boy you the only one that holds me down
Oh all the way down
Way down, way down
Oh you the only one that holds me down
Oh all the way down
Way down, way down

I wanna take my time with you
I hate the way you burn out oh
And I will come until the end
So let's enjoy this moment on the cloud

And now you see me now, right now
Oh I like it
I really like it
Ah huh
Oh I need it
I really need it
Ah huh
Oh I like it
I really like the way you take me high, don't let me fall

You should know by now
Na only you wey fi hold me down
You should know by now
Na only you wey fi hold me down
Boy you the only one that holds me down
Oh all the way down
Way down, way down
Oh you (you're the only one) that holds me down
Oh all the way down
Way down, way down
