

Make Time

Tiwa Savage

Baby make time, just a little time for me
We've been down this road before
But you keep hurting me over again
Make time (make time)
Just a little time for me
So many tears, so many fears
You're making it so hard to bear

But I'm always here, always here
Stood by your side all the way
I'm always here, I've been here
Some other girls will run away
But I'm always here, I've been here
Stood by your side when you dey do all the things you dey do to dey make me
dey cry eh
Don't make me regret that I love you
Oh oh I

Don't wanna be alone, heart broken
'Cause it feels like I'm the only one hurting
Maybe I remember when we first started
You and I, we cannot be separated
Aaah
Even when you right by my side
It feels like we're miles apart
Things that you did you don't do them anymore

I don't wanna go, I don't wanna stay
Are we gonna work this out, yeah
If you wanna go, if you wanna stay
Baby you just need some space and a little bit of time

Baby make time, just a little time for me
We've been down this road before
But you keep hurting me over again
Make time (make time)
Just a little time for me
So many tears, so many fears
You're making it so hard to bear

But I'm always here, always here
Stood by your side all the way
I'm always here, I've been here
Some other girls will run away
But I'm always here, I've been here
Stood by your side when you dey do all the things you dey do to dey make me
dey cry eh
Don't make me regret that I love you
Oh oh I

Okay I accept the blame, yeah
I know I really messed up
I know I said, "I changed"
But if I knew better, I'd do better
No one's perfect, I know you don't deserve this
It's not like I'm trynna hurt you on purpose (but you do)
But, let me finish

I'm tired of the fighting every minute (I love you)
Girl, let me finish
Back and forth, like the ball on a tennis court
I'm in the club with some girls I just met of course
You walk in with three friends trying to set it off
Yeah I got some things on my chest but I need some more time

Oh just a little time for me
'Cause we've been down this road before
But you keep hurting me over again
Make time (make time)
Just a little time for me
So many tears, so many fears
You're making it so hard to bear

But I'm always here, always here
Stood by your side all the way
I'm always here, I've been here
Some other girls will run away
But I'm always here, I've been here
Stood by your side when you dey do all the things you dey do to dey make me
dey cry eh
Don't make me regret that I love you
Oh oh I

Make time
