

I'm a soul-dier
And I fight fight fight fight fight
And I fight for my rights
And my music's my own right
And my love's in you
Night is over
Don't you lie lie lie lie lie
Don't you lie about your life?
Gotta live, don't look behind
Gonna fight for you

No need to tell you
I know that you can feel me

I'm king in my life And my music is my life
So I fight fight fight fight fight And I fight for my love
Just for you
I'm king in my life And my music's my own right
So I fight fight fight fight fight And I fight for my lord
And my music is my gift for you
I'm a soul-dier And I fight fight fight fight fight
And I try to keep the faith
Bleeding everyday I pray Lord and I thank you

You will never ever feel so lonely 'cause you oughta know
I'm your soul-dier
And my mind's you
And my love's you
And my soul's you
Is you
And I'll love you more and more oh yeah

I'm king in my life And my music is my life
So I fight fight fight fight fight And I fight for my love
Just for you
I'm king in my life And my music's my own right
So I fight fight fight fight fight And I fight for my lord And my music is my gift for you
And I fight fight fight And my music's my own right
And I fight for you (fight for you)
I'm soul-dier in my life
Within the limit of this time
I fight for you For you (and I fight fight fight and my music's my own right and I fight for you)
Just for, just for you I'm king in my life
And my music is my life So I fight fight fight fight fight
And I fight for my love Just for you I'm king in my life
And my music's my own right So I fight fight fight fight fight
And I fight for my lord And my music is my gift for you
I'm king in my life Just for you And fight fight fight fight Fight for you
