

Nowhere

TJ Monterde

I wonder if you feel the same way I do
'Cause I don't like how I feel when I'm without you

I want you here
I want you near
There's no place I'd rather be

'Cause my world turns gray
When you're away
You paint my brightest hues
My world turns gray
When you're away
Nowhere's a better place
Nowhere's a better place without you

I've been through a hundred crazy seasons
But with you I find every single reason

I want you here
Closer, my dear
There's no place I'd rather be

'Cause my world turns gray
When you're away
You paint my brightest hues
My world turns gray
When you're away
Nowhere's a better place
Nowhere's a better place
Nowhere's a better place
Nowhere's a better place
Nowhere's a better place without you

With you by my side I see the best of night
Like how the ocean shines beneath the moonlight
Nowhere's a better place
Nowhere's a better place when I'm without you
