Let me finish them [x16]

Underground queen in the zone, it's me [x8]

Let me finish them [x16]

I'm the underground queen, in the zone, it's me  
Fellas up ground, tryna steal my free  
Saying arm up, but they're built like trees  
When they see me, arm up, spreading out like fleas  
Run run like a nigga seen a cop, vroom vroom  
Always do the same, but be in the slum slum  
Onto something new, but I will never tell them  
But when I tell them will be when I sell them  
Never with a fella that can not afford them  
Need SL, margiela told them  
Money tight like assholes, I don't condemn  
Better step the game up when I roll with TM  
18, got them all in a bunch  
I eat him for lunch, no love, I gotta get to the punch  
They been waiting out for the brunch  
And they wanna munch, but I never let them dig for the scrunch  
If a fake wanna be, gotta give a fake fees  
Tryna live on me, but I think I don't see  
Never sat with me when I sitting hungry  
But they're like "Oh remember? Haha! Funny!"

Let me finish them  
Let me finish them  
Let me finish them  
Let me finish them  
Let me finish them  
Let me finish them

Underground queen in the zone, it's me  
Underground queen in the zone, it's me  
Underground queen in the zone, it's me  
Underground queen in the zone, it's me

Let me finish them [x16]

They can't remember their reason for sense  
Cause stalking my page more important than rent  
Shit will be funny 'til they on the end of the street sinking quick so they  
can get a pen

Let me finish them, fellas with the silly hem  
They're not really men, sissy when they're rea-lis-ing  
Never seen real tight, 'til I'm in the den  
And they're so tight, I bet they're getting men  
Bets on them bets, when I'm in, I pay free  
Hiding the residuals, cause they will pay me  
I know what you relish, bet you wanna buy me  
Three drinks, but I'm armed, only in for sight-sees  
I might give it to them, but I'm never chillin with them  
They're out here holding hands, but I'm billing villains  
Always been loyal, but I'm steady fishing  
Big dreams, ain't no fellas in the steady vision

Big dreams, ain't no fellas in here steady listen  
Go for mini-skirts, but the brain don't listen  
And when it's time to raise hands for who is killing bitches  
I'm gonna be alone, cause everybody's missin

Let me finish them [x16]
