

I Need That

TLC

This is a special song just for
Our fans on the internet
Sometimes you need that

Ha, TLC's back boy
Again and again
Woo

Ooh, I-I-I-I (I, I)
Ooh, ooh
Ooh, I-I-I-I
I-I-I-I-I

You and me (you and me)
Trading fantasies (uh huh)
Lying on the beach (yea)
Oooh baby (ooh, ooh baby)
I need you next to me (next to me)
'cause I'm steadily (uh)
Craving all the things
That you gave to me (that you gave to me)
Ohhhh

Don't you wanna know the dreams that I go through
Picturing the things I want to show you
Tellin' me sweet things I want to hold you close to me (close to me)
I really don't care who knows I wanna break you
Off give it to you like I'm supposed to
Baby I, I can't take this no more
I want you

Take me
'cause I want and I need that
Squeeze me
Then we'll know I like that
Tease me
I got to have you on me
I need that
Take me
'cause I want and I need that
Squeeze me
Then we'll know I like that
Tease me
I got to have you on me
I need that

Constantly (huh)
I fantasize on how to be (how)
Your favorite lady (uh huh)
Ooooh ooh baby (ooh)
I wanna feel your energy (yea energy)
Just flowin' through me (flow through me)
Creatin' memories of how I know it could be (oh)

Yo I keep it blazin' it's so amazin'

The occasion that I am raisin'
Mind body invasion
So who you savin' all that love for
Open up your mind explore
We'll make it hard-core
You can be the candy man
I'll be your candy store
Give you just a little more
Than what you bargained for
And if you ask me for some guidance
It's not a minus
I'll break it down to a science
Kitchen appliance
To what extent can you measure the true
Value of my 100 percent
When I'm unpassionate to you
Who thinks dollars and cents
I must confess I need that
Don't wake me up if I'm dreamin'
Because I'll be in that
