

Start a Fire

TLC

I can start a fire
Even in your sleep
Maybe we can start a riot
While you rest in me

Taking off like a red eye
I'm the last one to leave
Sippin' me for a nightcap
Got you bustin' in your dreams
Oh yeah...oh yeah...oh yeah...oh yeah

You can find me in
Find me in
Find me in
[x3]
Find me in your dreams

You can find me in
Find me in
Find me in
[x3]
Find me in your dreams, yeah...
Find me in your dreams, yeah...

You can find me in your dreams
No I won't be hiding
[x2]

You can find me in
Find me in
Find me in your dreams
[x2]

I can start a fire
Even in your sleep
Maybe we can start a riot
While you rest in me

Taking off like a red eye
I'm the last one to leave
Sippin' me for a nightcap
Got you bustin' in your dreams
Oh yeah...oh yeah...oh yeah...oh yeah

Find me in your dreams
No I won't be hiding
[x2]

You can find me in
Find me in
Find me in your dreams
[x2]

Boy you know you got me all in your head
Dreamin' about me, I'm all in your bed, bed
You know I ain't goin' nowhere
Anytime you want it, you can come get it, yeah

I'll be right in your dreams...
