

# This Is How It Works

TLC

Not everybody knows just how to do it  
Some just learn it on the way  
Once you get it right ain't nothing to it  
If you wanna get it right you gonna learn to pace

Make it smooth (make it smooth)  
Take your time  
Make it groove (make it groove)  
In out in  
Make it last (make it last)  
Kiss kiss kiss, kiss my....ahhh  
Ahhh ahhh ahhh ahhh

This is how it works  
Wrap your hands around my body  
This is how it works  
Go due south and  
This is how it works  
Load yourself into my body  
This is how it works  
Kiss my mouth

Some guys think they know the answers  
Everybody knows how to make you scream  
If most time took time out their fantasies  
Then maybe we can stop our make believe

Ready set go  
You don't have to know  
We can take forever  
Learn together any flow  
Touch me slow  
Watch it grow  
Kiss the tip gently blow  
Be my hoe and tape the show  
We can watch it in slo-mo  
When the sweet low drips  
Don't forget to let me wet my finger tips  
Write love letters back and forth across your lips  
Spread my whips  
Count to 80  
80 ways 80 trips

One time for your mind  
Two times if your tense baby let it unwind  
Three times let it bounce to the motherfukin ounce  
Here we go now ya know  
4th down let it flow back around come on  
Kiss my kiss my kiss my...MUAH

This is the way it works  
This is the way it works  
This is the way it works  
This is how you melt my body

One time for your mind  
Two times if your tense baby let it unwind  
Three times let it bounce to the motherfuckin ounce  
Here we go now ya know  
4th down let it flow back around come on  
MUAH wassup?
