

## U In Me

TLC

U in me feels twice as nice  
And everything we do is right  
It's nasty love but that's all right with me  
Once a month is not enough  
I think about it every week  
There's other guys  
But that's not U in me

I can't understand why it feels so good  
I never felt this way before  
I want U more and more each day  
Even if there's someone else  
I might as well take care of myself  
I'm never satisfied like U in me  
You're so damn special baby yeah  
I could have anybody but that's not U in me  
You're so damn special  
Don't wanna give mine up cause I like U in me

U in me became unreal  
I never hesitate to see  
I need it now and that's how it should be  
U in me was somethin' else  
Started messin' with my mind  
Cuz there will never be me in U (hey hey)

I could have anybody but that's not U in me  
So damn special yeah  
Don't wanna give mine up cause I like U in me  
You're so damn special, U know, U know, U know baby  
I could have anybody but that's not U in me  
So damn special

Can't understand the way I feel  
Don't wanna give mine up cause I like U in me  
You're so damn special baby  
I could have anybody but that's not U in me  
So damn special hey hey hey yeah  
Don't wanna give mine up cause I like U in me  
So damn special hey oh oh  
I could have anybody but that's not U in me  
So damn special hey yeah hey yeah  
Don't wanna give mine up cause I like U in me  
So damn special baby  
So damn special  
I could have anybody but that's not U in me  
So damn special baby hey  
Don't wanna give mine up cause I like U in me
