TNT

I make you crazy  
Sometimes I bring you down  
That's how I know our seeds were grown  
In the same ground  
And I believe I've known you for  
Least a million days or more  
Like the sun that dries my rain

Daisy Jane  
You're the only one who understands  
You're the reason I'm a better man  
You're my life  
Daisy Jane

I make you coffee  
Sometimes I make you smile  
I'd give you all the world  
If only I could child  
But you'll still get the best of me  
Up & down and inbetween  
And you rarely do complain

Daisy Jane  
You're the only one who understands  
You're the reason I'm a better man  
You're my life
