

# Knights Of The Thunder

TNT

Bearing the swords of steel  
So black you can't see  
Armored with will to survive  
Taking you dead or alive

Hear the roar of our sound  
Raging on to the stars

We're the knights of the thunder  
Rock you till the dawn  
(we're the) knights of the thunder  
(and) lightning is our song

We are the eye of the storm  
Cold dark wind from the sea  
Fear will never be known  
Cause our hearts have turned to stone

Hear the roar of our sound  
Raging on to the stars

We're the knights of the thunder  
Rock you till the dawn  
(we're the) knights of the thunder  
(and) lightning is our song
