

It Gets Easier

To Kill a King

Do do do, do do do do
Do do do, do do do do

Stay awake with me
Guess I'll live another sun, just another one with me
Close your eyes and feel the earth
Pretend there's nothing but your bed

It gets easier
That's what I've heard

Do do do, do do do do
Do do do, do do do do

Stay awake with me
Whilst the the moon seem sluggishly, then suddenly it's gone
Feed me all the lies tonight
And tell me everything's alright

It gets easier
That's what I've heard

Red eyes sunk deep
But there's something about to see
Comes in peace with me
Red eyes sunk deep
But there's something about to see
Comes in peace with me

Do do do, do do do do
Do do do, do do do do

It gets easier
That's what I've heard
I sing me once a lullaby
See there's no more last goodbye

Red eyes sunk deep
But there's something about to see
Comes in peace with me

(Red eyes sunk deep)
(But there's something about to see)
(Comes in peace with me)

Do do do, do do do do
Do do do, do do do do
Do do do, do do do do
Do do do, do do do do
