### To Kill a King

Had a great time at your wedding  
Now it's count down to  
The countryside  
And dogs and kids and suddenly  
I miss you  
Oh, I miss you

And I know it sounds crazy as you sat here too  
Dressed as a spaceman cowboy groom in the photo booth  
But I miss you, you're still here and I miss you

Time is an ever marching drum  
And I've hated that beat since I was young  
Ohh...

Change creeps on up just when you thought you had it all  
I can't fight it I can't fight it  
I'll just have to live beside it  
Change, the slowest bullet in the world  
Watch it soar  
I've been hiding I've been hiding  
But I know it always finds me

We made toasts we made speeches about the things we'd seen  
About future about love and the drunkest you've even been  
And how I'll miss you, you're still here and I miss you

Does it tear you apart oh the beauty of this spin  
It's all changing and ageing, I can't hold on to anything  
Oh, I'll miss you, oh I miss you

Time is an ever marching drum  
And I've hated that beat since I was young  
Ohh...

Change creeps on up just when you thought you had it all  
I can't fight it I can't fight it  
I'll just have to live beside it  
Change, the slowest bullet in the world  
Watch it soar  
I've been hiding I've been hiding  
But I know it always finds me

Like movie conclusions or new resolutions I'll be good till the next  
chapter hits  
The world keeps on spinning no ending beginning I'm caught in the  
delight of this

So take it slow, be gentle please as I'm spiralling
