

Devil's Reject

To The Grave

Hello from the gutter
From a place of zero fucking peace
Picture imperfect, pathetic and okay with it
100% medical inaccuracy
Do the world a fucking favour and slit your everything

Kicking and screaming, if I were you I'd shut my mouth
Shit outta luck, you're in the Devils playground
Are you listening? You're all alone in here

Mountains of skulls, rivers of blood
Dead bodies are stacked
'Til they've blacked out the sun
We are gathered here today to watch you tear yourself apart
Goodbye cruel world
End it all, take your family with you
Nobody will give a flying fuck

I'm in acceptance of the misery that follows me, no positivity
I dumped your child's body up shit creek
I just cut out both its eyes and tossed it's head in the sea

I will fill every hospital bed
Writhe with the maggots
Eat shit and die

I was born with the devil in me
The black sheep of the family
No safe space, just brain death
I'll make you wish you were aborted
Suffer motherfucker, asphyxiate

Mountains of skulls, rivers of blood
Dead bodies are stacked
Til' they've blacked out the sun
We are gathered here today to watch you kill your fucking self
Goodbye cruel world
End it all, take all of your friends with you
No one ever gave a flying fuck
"God damn you all"
No loved ones, no care at all

The devils rejects walk among you guiding you into oblivion
We hunt and stalk the streets as an unholy legion
Ambushed, apex predators spawned forth from your worst nightmares
We are hell incarnate and we don't fight fair
Skin their infants alive

Stomp their feeble unformed frames into the concrete
Defile the dead virgins cunt with phallus of this unholy beast
And by the hand of the basilisk I'll fulfill my destiny
Murder the innocent en masse
