

Full Sequence

To The Grave

Terror in the flesh

Bite my tongue off for what?
Nah fuck it I'ma say something

Let's talk

Biosecurity risks
Offcuts and offal that clog in the sink
What the fuck did you think?
Don't go in the sheds
Don't look in the bins
Paranoid about parasites
So we

Pull the plug on the ventilators
Give up, give up, you will decorate a hearse
What have we learnt?
Doomed to repeat this purge
I don't give a fuck anymore
Let it spread

Maybe they'll learn their lesson
Machines to help us breathe
Still won't address it
Now they want to help
Worry about our health
What a fucking joke
I've lost hope

Terror in the flesh

Cover your mouths, clean off the filth and quarantine
Keep your distance and run for the hills, accept defeat
We did this to ourselves. Killing them is killing us, how ironic.
Everyone's "personal choice" has evolved into a global threat

Pull out the urns

Pull the plug on the ventilators
Give up, give up, you will decorate a hearse
What have we learnt?
Doomed to repeat this purge
I don't give a fuck anymore
Let it spread

Out spills the ash from the urns
Digging our graves with our teeth
Don't like the taste of the dirt?
History always repeats
What the fuck have we learnt?
Can't see the plagues at our feet
Doomed to repeat this purge

We're going viral today
Garbage returned to the ashtray
Mood's changed

Keep the hospitals filled to capacity
Paranoid and we fucking should be
