

Hear Evil, See Evil (The Haunting of 2624 Dog Trap Rd)

To The Grave

Open and operating again
I guess it's up to us to carry out due justice
They may have dropped the charges but what's coming for you is
set in stone
See you soon, and when I do it's swing until I shatter bone
A pitiful fuck like you should be looking over his shoulder
Maybe when they return it's not with cameras but with hammers
Squirming maggot, know your place on the pile
The next could be your last and this time there'll be no fuckin
g trial
When the mask comes off
Just know you're fucked
Keep thinking we forgot
See you soon, cunt
