

## Recoil in Horror (????)

### To The Grave

I will reign in pain

Vomit in fear, piss yourself in panic  
Recoil in horror and shudder in silence  
Two blows to the back of the skull  
Drop you like a sack of shit

"Better a hole in the head before a knife in the neck"  
I've heard them say that it makes it okay or some shit

Exposing twitching nerves, heavily breathing, violently convulsing  
I died long before they slit my fucking throat  
Drain the blood  
Remove the abscess  
Pick the world clean of another scab it doesn't need
