

## Set Yourself On Fire (In Public)

### To The Grave

Watch how quick the skin burns off  
Your guilt eats away at you  
Here's a lighter, make them stop  
Make a move

Carnist cunts fuck off  
Stuck to your guns, stuck them in your mouths  
Carnist cunts fuck off  
Give them something real to complain about  
Carnist cunts fuck off  
Set yourself on fire

Everyone's a murderer  
About time you admit it  
Fuck this planet full of psychopaths you're all happy to live i  
n  
Kick it

Set yourselves alight  
That's the, that's the fucking circle of life  
Kick, kick in the door  
Waving our pieces  
Not stuck on a fucking planet with demons  
They're trapped here with me

Bathe this world in blood  
Nothing will ever change  
Bathe this world in blood  
'Til you go up in flames

Show them the body, they love it so fuck it  
All your pity, shove it
