

## Starting Now

Toad The Wet Sprocket

I've wasted years  
Won't waste another instant  
I fed my fears  
With things that haven't been yet  
Well, hope don't mean you sit there  
Just waiting for the changes  
It's fighting for the long shot  
It's getting in the trenches

Starting now  
Starting now

All I own  
Is borrowed from my children  
I'll leave this world  
More bright than when I came in  
So starting with the next breath  
I'll dig a little deeper  
Live a little kinder  
And love a little sweeter

Starting now  
Starting now

The best time to change  
Was many years ago  
Next best thing  
Is starting where we are  
If heaven isn't waiting  
If all there is is this  
Why wait another minute  
To trust the heart and live

Starting now  
Starting now  
Starting now  
Starting now

Starting now
