

Truth

Toad The Wet Sprocket

The truth will always surface
The truth will bring the light
The truth is always changing
The truth does not take sides

I don't believe in much but I believe in love
I want to think we're better than what we have become
It's time to speak to power, it's time to shake things up
I don't believe in nothing, but I believe in love

Truth is we might not make it
Truth is we had our day
Truth is the world won't miss us
When we have gone our way

I don't believe in much but I believe in love
I want to think we're better than what we have become
It's time to speak to power, it's time to shake things up
I don't believe in nothing, but I believe in love

Truth don't fear the daylight (Don't tell me no lie)
The truth don't like to hide (Give me the power to freely decide)
The truth don't care what side you're on (Don't sell me no lie)
The truth won't be denied

Frederick Douglass said it:
"The truth is always proper
The truth is beautiful
At all times and in all places"
I say the truth will free us all
The truth will free us all

I don't believe in much but I believe in love
I want to think we're better than what we have become
It's time to speak to power, it's time to shake things up
I don't believe in nothing, but I believe in love
I believe in love
