Magic Bullet

Toadies

She finds herself in the home of a stranger
She senses there's an emptiness she can fill
She just wants to put her whole life behind her
She just wants something that she can call real

She's looking for a magic bullet
A mystic trigger and the will to pull it
She's looking for a magic bullet
And time, time is not on her side

He takes her hand, the night is determined
And down this road they know they must go
He just needs one more taste of his medicine
He just wants to forget the days that are gone

He's looking for a magic bullet
A mystic trigger and the will to pull it
He's looking for a magic bullet
And time, time is not on his side
And there's only tonight

We're all looking for a magic bullet
A mystic trigger
And the will to pull it
We're all looking for a magic bullet
And time, time is not on our side
We've only got tonight
