

Ashamed

Tobe Nwigwe

You should be ashamed
That nothing's really changed
And it's your ignorance
That won't give me a chance
Because of the color of my skin
You won't listen
And after all this time
You won't change your mind
And you should be ashamed

What more will it take
Before you realize your mistakes?
You've got it all wrong
And you've been wrong all along
Now look where we are
We haven't healed one scar, oh
And after all this time
You won't change your mind
You should be ashamed

You should be ashamed
That you don't try to change
And you keep goin on
Singing same old song
It's so hard to believe
That you just cannot see
Your people getting slain
And you keep playing games
So you should be ashamed

And after all this time
You won't change your mind
And you should be ashamed
