

KICK ROCKS

Tobe Nwigwe

Look

Kick rocks if you ain't never spent no tick tocks
On sick blocks

Where they simultaneously grip Glocks

And yo wrist watch

If it's hot or cold don't matter

Up in the swat if you talk bold

Then yo chatter will prolly get met with force my G

We live eye for an eye

Unfortunately authorities don't consider minorities priority

So my hood got disorderly

Conduct in a construct that they ain't build

So hell

I feel 'em

Dot on yo head like Krillin

If you concealing the feelin' of stopping

Even a single schilling from fillin' they pockets

Only want the profit

Every bar I spit is water

My lips a faucet

Put every bar upon the altar

To reach the cosmics

In hopes that when you hear it

It shift ya spirit

This new sound I'm pioneering

Requires sincerest apologies

To those who in fear of me

Shifting the mindset of my peers

Into an atmosphere

Where they hear Jah the clearest

Ouu

'Cause that's exactly what I'm gon' do

I've shown you

I don't maneuver how the clones do

If you can't take when you want

That means they own you

If you a liar or a thief

I'll never loan you

A pretty penny

Don't even mention a dollar

Protect yo jimmy from those who simply want commas

My hood ain't friendly

They'll crack yo melon for guava

That's why I keep something near me

That make you move like Bachata

Ouu

That's why I keep something near me

That make you move like Bachata

Ouu
