

NOBODY

Tobe Nwigwe

Yeah, yeah, yeah
Who you know liver?
Who done made it out the slums?
Who got a flow nicer?
And made somethin' out of crumbs?
Yeah, I'll wait, that's right, nobody
Yeah, I'll wait, that's right, nobody

If I ain't the best I'm adjacent, my flow still deep as ocean basins
My partnas, whether they deal or no deal, still got open cases
Most my partnas in the races, I tried to tell 'em it's for rats
But you know how it go, all they focus on is cheese in the trap
Oou, tell a hater back back, go on 'head, give me fifty
I hustle like Nipsey, Yahweh assists me, that's why the flow smooth as whisk
ey
Oou, if I was I'd pick me, I said that verbatim to Fat
When she was a maiden who lacked vision that made her observations wack
At least pertainin' to the lames with cash who let some paper hang and aim t
o grasp
An ample sample of that cootie cat, them dogs was lookin' for a scooby snack
But she avoided all the booby traps and got to me, yeah a g
T-o-b from the lief, MVP from the streets
Catch a seat, while I teach how to beast on a beat
Fe fi fo fum, ay, keep my toast on safe
But I will release if my foes come play
Anywhere in my vicinity, Jeff got a crib with amenities
But he grew up on the west where committin' a foul ain't a penalty

I'm a giant, I'm a savage
'Bout my cornbread, 'bout my cabbage
Where I'm from you keep it diplomatic or catch a casket
Where I'm from you keep it diplomatic or catch a casket, yuh

Keep it one hunnid like centipedes, me and Fat look like a centerpiece
Let a lot of boys borrow my style, I should be chargin' 'em rental fees
Skin the same color Hennessy, every bar I spit is dipped in gold
I'm in this world but I ain't nothin' like it here, I just learned to coexis
t with foes
My partners in the trap pigeonholed, me and Elohim give and go
Was celibate but now Fat be walkin' 'round pigeon-toed
Yeah, Shekinah Glory with the consummation
Whole relationship in consecration, hell, we just tryna shine like constella
tions
Treat my hood like the congregation, give 'em mo' word than conversations
CHL for the confrontations, swear every bar deserve compensation

I'm a giant, I'm a savage
'Bout my cornbread, 'bout my cabbage
Where I'm from you keep it diplomatic or catch a casket
Where I'm from you keep it diplomatic or catch a casket, yuh

Pay me, pay me what I'm worth, swear I got it out the dirt
Every beat I'm on dessert, keep a slogan on my shirt, don't buy music, buy m
y merch
Half my partnas put in work, half my partnas in the hearse, all the aqua I d
isperse
And every bar that I rehearse is for my partnas feelin' cursed

'Cus they was immersed in a different ethic code, ethic code, ethic code
Never told they was next to blow so they put metal to your chest like a stet
hoscope, oou
I'm blessed to flow, my mama thought that I was just a joke
I still got partnas tryna cut the coke and never been a Capricorn, dog I'm j
ust the goat, oou
