

## Random Interlude About Consistency

**Tobe Nwigwe**

Man, volume 2, Get Twisted Sundays. We are here, man. Volume 1 was crazy though

Come on

The Soundcloud listeners were crazy

Yeah. Praise God

How do you, how do you get here in just a few months, man? This is wild

Uh. I think the biggest thing is, lowkey, consistency. There's lot of talented people that I've met and I've seen who just lack consistency. And if I've ever learned anything from E it's I don't care how sweet you are, how good your sound is. If you ain't got something consistent, like, it ain't gon' last long, and the people ain't really gonna fool with you like that

Every Sunday, man, putting out a new video

Every. Yeah

New raps for the people

Come on

This is for them, this ain't for you, this not for us. This is completely for Houston, for America, for the world. To here

I like that

The raps, man. Man, I cannot get over the fact that these consistent raps and bars every time, and that's all people ever say, you know. You gotta talk about what these comments, what the people are saying about your tape, man. It's amazing, man

You go to them comments, you see people, and they like "yo, dude, your stuff is effing good, mate". And I'm like "yaah". That's how you know, that's how you know that people really feelin' it. It ain't got nothing to do with anything but, uh, the realness, and like, just the real situations that started happening

Right. I wish comments had accents so you could..

That, ayeee

Right, aye, he said, he said that in a Russian tone

I love it

You know, that'd be better

Yep, what else questions you got?
