

# Water

Tobe Nwigwe

[?] between having thirst... regular thirst... and then there's extreme thirst...

The best solution... water, water, water...

This that water (Water, water, water)

This that, this that (Water, water, water)

This that water (Water, water, water)

This that (Water, water, water)

Will you take a sip?

Will you take a sip?

Will you take a sip?

Haters try to calcify but I'm too alkaline

Swear, if you try to mastermind you must be asinine

I spit fiji for the freebie, tryna enhance the species

Teenie weenie fece rappers give me the heebie-jeebies

Plus you the pseudo-deep rappers who swear they be divine

Be on that Book of Eli, reading but low-key blind

Researched of how they see my spirit and get intertwined

With thoughts of being revived, simply because

This that water (Water, water, water)

This that water (Water, water, water)

This that water (Water, water, water)

This that water (Water, water, water)

Will you take a sip?

Will you take a sip?

Will you take a sip?

Will you take a sip?

Sip?

Look, it's that water, tell me where you sip it

It's evident how melanin make you look hella spiffy

The president, so eloquent and incoherently distant

Your residence irrelevant when your spirit is missing

Oh, both my partners walk in tongues

My dawg will kill and he gansta, double-homi

I got some homie, don't know what they do, couple terms

My dawg Jermaine lost his life tryna hustle 'caine

Mommy, mommy, mommy, what your baby doin'?

Often times we comely, watchin' our baby sheep

Ain't no pops around so pimps is teachin' prostitution

And they catch bodies for the blood, no communion

Feel like Newman, the way I develop atom bombs

This for the nappy head captives that dwell in Babylon

Y'all the reason every beat that's in my catalogue, I spazzed upon

Now I just spit it to be the masses on

Yeah the masses on (Masses on, masses on)

Every single baddie I passed up on got they glasses drawn 'cause

This that water (Water, water, water)

This that water (Water, water, water)

This that water (Water, water, water)

This that, this that water (Water, water, water)

Will you take a sip?

Will you take a sip?

Will you take a sip?

Will you take a sip?

Look, don't fool this butter from here to Calcutta  
With every single word that I utter, I shudder  
When I think of all those who suffer 'cause I swear they all 'bout to discover  
That alkali, it's the last supper, if chadowan up they might buck ya

But until they're with us (It's that wade in the water)  
But until they're with us (It's that wade in the water children)  
(It's that wade in the water)  
You look so thirsty baby, ooh, you look so thirsty dawg, yeah  
(It's that wade in the water children)  
You look so thirsty baby, ooh, I swear you look so thirsty dawg, yeah  
(It's that wade in the water)  
You look so thirsty baby, ooh, you look so thirsty dawg, yeah  
(It's that wade in the water children)  
You look so thirsty baby, ooh, I swear you look so thirsty dawg, yeah

Will you take a sip?  
Will you take a sip?
