Tobi Lou

Gimme lick, gimme hot  
Get me somewhere I forgot  
Told that bih I'm a thot  
Can you ride me in my drop?  
Every time I hit the block  
Hit the block, hit the bl-  
Hit the block, hit the block, hit the block  
Gimme lick, gimme hot  
Get me somewhere I forgot  
Told that bih I'm a thot  
Can you ride me in my drop?  
Every time I hit the block  
Hit the block, hit the block  
Hit the block, hit the block, hit the-

But when you need me, how I always end up missing?  
But when you need me, how I always end up missing?  
No it ain't easy how I'm always on a mission  
And I'm not just lyin' to you like some politician  
I was making songs, the one nobody listen  
Now I owe my life to anybody who listen  
This ain't happen overnight, you know it took a lil minute  
Now I look at the sky and I still can't see my limit

You know it's all love like we still playing tennis  
And if I gave a fuck you'd be the only one to get it  
I pulled up in that truck  
Ch-ch-ch-check on how you living  
What happened between us really ain't nobody business  
No they wouldn't get it

Gimme lick, gimme hot  
Get me somewhere I forgot  
Told that bih I'm a thot  
Can you ride me in my drop?  
Every time I hit the block  
Hit the block, hit the bl-  
Hit the block, hit the block, hit the block  
Gimme lick, gimme hot  
Get me somewhere I forgot  
Told that bih I'm a thot  
Can you ride me in my drop?  
Every time I hit the block  
Hit the block, hit the block  
Hit the block, hit the block, hit the-

Now every time I hit it I know how to fix it  
I get super lifted 'til I'm too terrific  
And it don't take none but some repetition  
It could be fourth down and distant, bitch I go the distance  
I know how to execute with the precision  
I just close my eyes and now I see the vision  
She want me to visit, I just need a ticket  
I'll be on the next flight if I do not miss it  
But when you need me, how I always end up missing?  
When you need me, how I always end up missing? (Huh)  
It ain't easy when I'm always on a mission (Huh)

And I'm not just lyin' like some fucking politician  
But you won't believe me if I told you how I'm feelin'  
Yeah I got demons and I don't know how to kill 'em  
But don't you worry 'bout me, one day I'ma get 'em  
I looked up and I still can't see my limit

You know it's all love like we still playing tennis  
And if I gave a fuck you'd be the only one to get it  
I pulled up in that truck  
Ch-Ch-Ch-Check on how you living  
What happened between us really ain't nobody business  
No they wouldn't get it

Gimme lick, gimme hot

Can you ride me in my drop?  
Every time I hit the block  
Hit the block, hit the bl-  
Hit the block, hit the block, hit the block  
Gimme lick, gimme hot  
Get me somewhere I forgot

It's been the longest day of my life  
Man I'm just tryna make it through the night  
I need that service only you provide  
I was hoping you can meet me in the sky  
You know this ain't the only way to go  
I turn around like "Whatchu waiting for?"  
You held it down when I was hanging low  
You in my head like radio
