If you like what you see
Spend money on me
I get paid a fee

I wanna thumb through the bands with you? (Thumb through the bands)
We could count green 'til the skies are blue
(Perish Blue)

Bonjour mi amor
What can I do you for?
I got product in the store
Come shop wit the boy
I'm washed up by the shore
But you know I get down
And there really ain't no other way
I like having you around

Came down like

Bitch I'm from Chicago
Going full throttle
With or without you
Long as you got me know anything possible
Back to back we gonna make it through these obstacles
You know I-
You know I-

If ever you need someone
You know I got to know
You know I got to know
If ever you need somebody
Anybody
You know I got to know
You know I got to know
If ever you need
Someone
You know I got to know
You know I got to know
If ever you need somebody
If ever you need anything
Someone
You know I got to know
You know I-
