

# Hold Me Close

Tobi Lou

I need you to  
I need you to (I need you to)

I need you to hold me close  
Never let me go East Coast  
I feel like the old D. Rose  
New wardrobe  
Everything inside me broke  
Everyone around me ghost  
Holy smokes  
Money all around me gross  
I feel like I'm drowning  
Don't miss me whoa  
I'm everything a bitch need whoa  
Still got the 630  
Same old phone (Still got the same old phone, still got the same old phone)  
Yeah, don't fall for the same rules  
Same things, fake news, same schemes (Ooh)

Yeah, it's been a big minute now I'm fucked up  
Aye, gotta stop running from the sunset  
Aye, let me know have you found the one yet? (one)  
Let me know are you having fun yet? (Yeah)  
Are we done yet? (Yeah)  
Are we done? (Are we done?)

Are we done?  
'Cause I'll be there for you

Yeah, yeah (Yes)  
She do not love me but she won't let go  
I'm from Chicago so yeah bitch I'm cold  
It's kinda windy you might need a coat (This city is cold)  
I'm Live on Ice and I'm not even froze  
I'm a water bender water gang whoa  
I'm from a city that's made out of soul  
Vernon just told me to come out to Seoul  
I just got my visa so fuck it leggo  
Seventeen no not the magazine, uh  
I just slipped into the diamond life (Diamonds)  
I feel like Rihanna I'm shining bright  
This year is mine and it's not even close  
I'm going too hard  
I'm out of control  
I'm covered in scars  
My baby went rogue  
I still feel alone  
I'm still going strong  
I still haven't blown  
But this shit gon' go, yeah (Aye)  
This shit gon' go, yeah (Aye)  
Can't you (Tell?)  
Can't you tell that I'm on a roll?  
In that bitch like Anna Nicole  
Whipping that brick turnt my hand to a stove  
We won't make it off this planet alone  
Built like the sun so I plan to explode

Bitch I'm so high I just landed in Rome  
I never been, one day we should go  
We never go nowhere you told me that once  
I'm working to hard you told me that twice  
Third time's a charm I'll make that shit right

Right, right, right, right, right  
I'll make that shit right (are we done?)  
But for now, but for now, aye (Yes)

I need you to hold me close  
Never let me go these ropes  
'Round as we do-si-do  
Holy smokes  
Moving like the Holy Ghost  
I feel like the new D. Rose  
Please don't go  
I been down a lonely road  
And you know you're my only hope  
Yeah that's all folks  
Murder that we know she wrote  
Ballin but I'm no hero  
No he won't  
I was 'bout to go Deebo  
But Derrick just told me don't  
So I won't (You know what) (I don't-)  
Fuck it (I don't even care no more)

Yeah, someone over there got me fucked up (You picked the wrong one)  
Aye, gotta stop running from the sunset  
Aye, let me know have you found the one yet? (One)  
Let me know are you having fun yet? (Yeah)  
Are we done yet? (Yeah)  
Are we done?

Are we done?

I will- I will- I will remember for the rest of my life
