

# Meteorite

Tobi Lou

You don't want no part of this  
I just can't be part of this  
Just came off an argument  
Now don't you be startin' shit  
All I do is make mistakes  
Kiss me 'fore I fade away  
I keep lookin' at her booty  
Cause it keep on gainin' weight  
Give me the light  
I just took off in the meteorite  
Fuck on my baby, I'm beatin' it right  
Love me as long as I'm treatin' you right  
I do whatever you want me to do  
I keep it loyal and honorable  
She had a choice, she made a move  
She heard my voice, she said new tobi lou  
New tobi lou, brand new, new tobi lou  
New tobi lou, brand new, new tobi lou  
I be your boo  
I do whatever you want me to do  
Hop in the coupe  
Drop on the roof  
Wo-Wo-Wo-Oh

(High hopes)  
I'm so high, just hit my milestone  
Please don't try this at home (I know)  
I don't need you on my iPhone  
Maybe you should let me go  
(High hopes)  
I'm so high, just hit my milestone  
Please don't try this at home (I know)  
I don't need you on my iPhone  
Maybe you should let me go

Maybe you should let me go  
(Maybe you should let me go)  
I just figured I'd  
Give you a little space  
Breathe  
But let me know  
If you tryna

See me tonight  
I just took off in the meteorite  
Open your eyes and reach for the light  
Look at the sky and see me in flight  
You are the only thing keepin' me live  
Bust it wide open, I eat you alive  
Fuck on me, baby, I'm beatin' it right  
Love me as long as I'm treatin' you right  
Long as I do what I'm supposed to do  
You've got me so damn emotional
