

Preoccupied

Tobi Lou

I get so excited
When you say you miss me
But I get more excited
On the first and fifteenth
Might get so excited
When we get to spend some time
If I ain't thinking 'bout you
Then it's money on my mind

I used to
I used to
Used to think about you
But now I'm preoccupied
I'm preoccupied

I used to think about you like Frank
But then I got money in the bank
I know my rent still be late
But a nigga gotta fill up his tank
So now I got the gas and the dank
Now she wanna ask about a date
Yeah I'm straight
Last time the bih kept picking out my plate

I'm feelin pretty like Tom
I have no pity for blondes
My last baby was a blonde
And she had me blown
I couldn't sing any songs
I was ahead of my time
So I'll be much later next time
She never had any time
She was a waste of time
Cuz when you really want somebody
You know you'll make them sometime

Cuz you make time for what you want
I got time to roll a blunt
I want that new DSLR cuz it's all shiny in the front
I'm somewhat vibin' in the cut
I'm probably higher than the sun
I don't have time for what you want
I don't have time to give a fuck

But you know how I get
Yeah you know how I get
I get so excited
When you say you miss me
But I get more excited
On the first and fifteenth
Might get so excited
When we get to spend some time
If I ain't thinking 'bout you
Then it's money on my mind

I used to
I used to

Used to think about you
But now I'm preoccupied
I'm preoccupied
