

# Roller Coaster

Tobi Lou

Rain delay, made that bih rain like a soaker  
Purple rain coat, whipping like a winter soldier  
Changing lanes, watch me whip that thing like a loner  
David Blaine, baby went poof, now it's over  
Now I'm tryna get that thing back in the holster  
I'm just in the mirror, man, peer a lil closer  
You won't post it though cause you said you needed closure  
How long are we gonna ride on this roller-

Never see me on a rainy day  
(You know I had to)  
I was too busy tryna-

Take the pain away, you know I had to get it  
Racing over to you like a speeding ticket  
Ain't nobody really really fucking wit' you  
Tell me where you hidden and I'll come and getcha  
Let me fill you up 'til your cup runneth over  
Half the time I spent with you I wasn't sober  
Nowadays I'm too sober  
Scoot over, new sofa, new loafers  
Can we have a do-over?  
Maybe cop a new (whip)  
New scooper, duper  
Diamonds in Aruba

Aye, say my name, say that shit like you supposed to  
Purple rain colder than a bitch in Minnesota  
You won't close the door 'cause you said you needed closure  
How long are we gonna ride on this roller-

Do me, my name is Adeyemi  
It's like a Kawasaki  
You know just how to ride it  
You know just how to ride me  
You know just how to ride (Ride, ride, ride, ride, ride)  
You know how to ride  
You know just how to ride (Ride, ride, ride, ride)

Faking don't make sense, begging don't pay rent  
Riding in a spaceship, you know how that thing dip (You know how it dip)  
And if you really know, you ain't even gotta ask  
And if you gotta ask, you don't really even know  
And if you don't know then let it just pass

I think I'm better off without my-  
(Were you gonna say bag?)  
Never seen no one get round me like  
I think I'm better off without the (Bag)  
F on my chest and I checkered the flag  
Fuck up them checks, I'm an expert at that  
(Never seen me on a-)  
(I was too busy)  
(I was too busy tryna-)

I lost my sister and my girl in the same year  
I never tour around the world with the same tears

New tears, baby, I got new tears  
New fears, tell me how are you dear  
I can't get you off my mind, why are you here?  
Sixty-nine you by the root beer  
Now we all square, are we all here?  
It's like 3 something, can you keep it coming?  
Okay yeah this beat is thumping  
Hold on let me think of something  
Other than how we becoming  
Something obsolete or something  
We don't even speak or nothing  
I ain't really see this coming

Aye, say my name, say that shit like you supposed to  
Purple rain colder than a bitch in Minnesota  
You won't close the door 'cause you said you needed closure  
How long are we gonna ride on this roller-
