Tobi Lou

Yeah  
Yeah  
(Sailor)  
Yeah  
Sailor, sailor, sailor, sailor  
And her milkshake

And her milkshake bring all the boys to the yard  
Put that thang in a jar  
I heard that she real down to Mars  
So Imma save that thing for tomorrow  
I graduated, never going back  
So nigga please, don't test me  
You can't tell me and my boys apart  
We're like Ed, Edd, and Eddy  
This shit feel like '06  
This shit don't make no sense  
Donald Trump you an old bitch  
I just got lost in the moment

I've always end up wanting something unattainable  
I just posted a pic I hope you like it, say you do  
My baby love the stars and she moves like Sailor Moon  
Sailor, sailor, sailor  
At night I feel like I just want to run away with you  
Put my phone on silent like I'm unavailable  
'Cause all I see are stars when you move like Sailor Moon

Yeah  
Sailor, sailor, sailor

And her milkshake bring all the boys in  
But I heard she got a boyfriend  
Some boy in Sheboygan  
And I'm all the way in Illinois man, so, so  
So just cry for me  
But there's plenty fish in the ocean  
So I think Imma join them  
But I'm not ready to be chosen  
So I'm trying to hide my emotions  
But the henny got me open  
And the zoobie got me choking  
God damn Andre, what you rope me in?  
Ay, bae bae like you're Oakland  
Got a wet little thing, super soaking  
Gotta cannonball, not dip the toes in  
So I'm goin' in, yeah I'm goin' in

Splash  
I think I'm a sailor man  
Yeah  
Riding the waves again  
Yeah  
They love me like anchorman (I feel like a, feel like a)  
Yeah  
Must be a sailor man

Feel like a sailor man  
They riding the wave again  
My whip is on cruise  
I'm singing the blues  
I must be the sailor man  
Riding the wave again  
My ocean so blue  
My baby the moon  
My baby the moon

I always end up wanting something unattainable  
I just posted a pic I hope you like it, say you do  
My baby loves the stars and she moves like Sailor Moon  
Sailor, sailor, sailor  
At night I feel like I just want to run away with you  
Put my phone on silent like I'm unavailable  
'Cause all I see are stars when you move like Sailor Moon
