

Dollas And Cents

TOBi

Aye, who knew your plan of attack was now
Life is chess, movin' stealth like a panther prowl
Boys make noise, lions roar to a cats meow
Pound for pound in the the ring, I'm like Pacquaio
Blow, blow, I'm Rocky Bal'
Shed some real nigga tears 'fore I crack a smile
Hit up my pal, let's go half on a sack for now
Man, who cut the trees down? Better ask around

Dollars and cents, yeah
Dollars and cents, babe
Dollars and cents, babe
Dollars and cents, yeah
Dollars and cents, babe
Dollars and cents

This how I feel
Dudes movin' funny, it's funny it's not real, aye
Wanna make an examp'
Shakin' up the game, the minute I was makin' a plan
Workin' work the dojo, I'm shapin' the sound
Never thought of takin' they spot, I'm just makin' it hot
Changin' of the guard, the gatekeepers changin' the locks
We ain't in the building but I know how to break in the house

Baby, look how you flaunt it
You don't gotta say shit
It's in your body language
Look how they gazin'
Ain't seen the rain fall down in a minute
No one can take your crown
You ain't gon' waste your time with no petty business

Uh, uh, you feel me?
Dollars and cents, babe
Dollars and cents
Dollars and cents
Dollars and cents, babe
Dollars and cents, yeah
Gotta make sense, babe
Dollars and cents

Double residuals, separate the wheat from the chaff
Me and the staff in the kitchen, I'm just cookin' it back
Jaw dropped like a cinderblock in the ocean, baby, I'm just makin' it last
In the land of the livin', listen, I'm livin' proof
Of what a little but of faith and dedication do
Just a different dude hangin' out with Chelsea
She wanna kick it like Liverpool, I was tryna to get in the main
Synesthesia I'm seein' green with a tint of blue
Overthinkin' decisions, it's difficult to get in the mood
Only one life to live and all them issues are minuscule
Say I got your back, I got your back like a masseuse
Class in session, it's a blessin', takin' you back to school
You just gotta learn the difference between dollars and cents, babe

Gotta make sense

I know all your friends look like
They don't understand (You at all)

Dollars and cents, babe
Dollars and cents, yeah
Dollars and cents, babe
Dollars and cents, yeah

Baby, look how you flaunt it
Don't gotta say shit
It's in your body language
Look how they gazin'
Ain't seen the rain fall down in a minute
No one can take your crown
You ain't gon' waste your time with no petty business

Baby, look how you flaunt it
Don't gotta say shit
It's in your body language
Look how they gazin'
Ain't seen the rain fall down in a minute
No one can take your crown
You ain't gon' waste your time with no petty business
