

Don't Wanna Think

TOBi

Boom boom bass
Boom boom bass
It's too too late
New New
This new new wave
It's too too lit
New New Wave
I wanna...

I don't wanna think about it
There's too much too much on my mind can't think about shit
See I could go to the bar and have a drink about it
Or maybe hit the studio and just sing about it

Imma take you deeper than a diver on a scuba
Got Toronto feeling hotter than Aruba
You could be a winner it depend on how I do ya
Make the devil even holla hallelujah
I'm Nat king Cole man this black king cold with the flow
I'm Tryna keep my ego on the low (on the low on the low)
You should know It go
You should know how it go by now
You should know how it go no
I don't wanna think about
I don't wanna think about
I don't wanna think about
I wanna
I wanna
I'm a elephant
I remember everything
Got my mistress everything but a wedding ring
Save the low blow popo at the front do don't let em in
Oh no popo at the front do don't let em in

I don't wanna think about it
There's too much too much on my mind can't think about shit
See I could go to the bar and have a drink about it
Or maybe hit the studio and just sing about it

Young nigga sing your peace
Yeah you-you can't
Dodge what you need or see
That true true face
Down to the earth I see
This moon moon wave
This boom boom bass
It's too too late
Right on right on right on
Gather those bags before I
Write on target letters
Carved caught fires out the sky
Admired for the lines, Fire for the time
And I don't wanna think about it
I just wanna oh

I don't wanna think about it
There's too much too much on my mind can't think about shit

See I could go to the bar and have a drink about it
Or maybe hit the studio and just sing about it

I know sometimes it's hard
I know sometimes it's hard
I know sometimes it's hard
I wish that I could
I wish that I could just fly away
And I wish that I could hibernate
