

How Many?

TOBi

My sole purpose was to prove em wrong
In the eye of the storm still keeping calm
The Trojan horse that I rode in on
Circle round the house 3 times to be sure
I guess all this stimulation got me paranoid (paranoid)
Wonder if I ever even ever had a choice
We don't choose who we born To
We don't choose who we fall for
If you slip better fall forward
It's the game of life we both in baby
Let's play (Let's play)
Smoking dope and getting closer to my senses
What a sensation
Nowadays I hit the double tap and bounce
Keep it moving like the shawtys at my house
Buy some gas from the change up out the couch
Hit the pedal came too far to calm it down
Hey!

How many cats know they stuck in they ways?
How many rats know they run in a maze?
How many dogs know... they chasing they own tail?

How many cats know they stuck in they ways?
How many rats know they run in a maze?
How many dogs know... they chasing they own tail?

My mind like a labyrinth, let me welcome you in
To a sinner who stuck in comforting trends
It's a Friday night shawty got me gon off the gin
She changed her hair it's like I'm making love to her twin
All these self help books on the floor ughh
That's kush in my clothes
That's the mandem cologne
It's the baby face g but I'm grown
Too many lanes on the road
For you to staying in my zone
It's the same damn scene every month every week
Said You only as far of the company you keep
Hittin Js, hittin cheeks, hitting sheets, Hit repeat
Why I go from A to Z just to get to B...
