

Keep From Falling

TOBi

I used to send you film recommendations
In my arms you were safest
Spent time in the basement, uh
Drunk dialed from a fucked up situation
Won't you send me your location?
3 am and I'm racing on
Backseat of my mama's whip
Broke down as you told me
That bitch don't deserve you at all
Third spliff on rotation
Earth spins on rotation
Who's gonna love you tomorrow?
Oooh

Not enough
Not enough seconds in between breaths
Not enough
Not enough warmth on my bare chest
Oooh
Oooh oooh
Keep from falling

How we get lost in the moment?
How far we've gone
We know we better alone
How we get lost in the moment?
How far we've gone
We know we better alone

(Pa pa pa, pa pa pa)
Keep from falling (Pa pa pa, pa)
(Pa pa pa, pa pa pa)
Keep from falling (Pa pa pa, pa)

2 hours on the phone laying we on both sides of the risk
Distance growing 'tween us and we both know what it is
I love you too much to get caught up in the mix
Glass half full poured in some gin
Can't avoid feel a void creeping in
How did we get here now I'm breaking you off?
Taking it off
I'm bringing your walls down
Ohh ohh ohh
Gone with the wind
Just to keep from falling

Not enough
Not enough seconds in between breaths
Not enough
Not enough warmth on my bare chest
Oooh
Oooh oooh
Keep from falling

How we get lost in the moment?
How far we've gone
We know we better alone

How we get lost in the moment?
How far we've gone
We know we better alone

(Pa pa pa, pa pa pa)
Keep from falling (Pa pa pa, pa)
(Pa pa pa, pa pa pa)
Keep from falling (Pa pa pa, pa)

I told you my all
When I was down to my last (down to my last)
What is the cost?
What is the cost?
Paying attention

Down to my last
What is the cost?
What is the cost?
When I'm down to the ground
To the ground
When I'm down to the ground
To the ground, hmm

Keep from falling
Keep from falling
