TOBi

All they do is talk 'bout it, I just wanna be 'bout it
No, this ain't for everybody
Me, I ain't for everybody

Tell you, baby, that I'm comin' over
Wouldn't mind if there's nothing on you
Pheromones hit me through Chanel
Smoke screen, but I see you clear
Tell me, hold on a second longer
I can tell that you're getting closer
Hear you moan when I kiss you there
Where you going? Let me get you there

Baby, baby, please don't
(All they do is talk 'bout it, I just wanna be 'bout it)
Don't go off without it, no
(No, this ain't for everybody, me, I ain't for everybody)
Tell me, tell me, please, no
(All they do is talk 'bout it, I just wanna be 'bout it)
Don't go off without it, no
(No, this ain't for everybody, me, I ain't for everybody)

I need to know you always down
I need to know you always down
I need to know you always down
I need to know you always
Baby, baby

All they do is talk 'bout it, I just wanna be 'bout it
No, this ain't for everybody
Me, I ain't for everybody
All they do is talk 'bout it, I just wanna be 'bout it
No, this ain't for everybody
Nah, I ain't for everybody

I ain't tryna kiss your ass goodnight
I ain't tryna miss you like a flight
I'm just tryna get you for the
Red eye mean you ride all night
I'm just pitching up like a tent
You just give it up like it's lent
I don't give a fuck about your friends
While they on the fence, grass greener where we stand
Ain't talking wedding rings
Helped groom your wings as you moved onto better things
Whatever, man
Blue shells missing, you well, you in second place
Never had a friend
Low blows, high road, know I took the latter route
Wish you knew it was still love pouring out

Baby, baby, please don't
(All they do is talk 'bout it, I just wanna be 'bout it)
Don't go off without it, no
(No, this ain't for everybody, me, I ain't for everybody)
Tell me, tell me, please, oh
(All they do is talk 'bout it, I just wanna be 'bout it)

Don't go off without it, no
(No, this ain't for everybody, me, I ain't for everybody)

I need to know you always down
I need to know you always down
I need to know you always down
I need to know you always
Baby, baby

All the things that matter can't be held (Trust me)
Can't be touched, yet they can't be felt (Trust me)
Been a long year and a half, did the math
Dusting these emotions off the shelf, yup
I can't help but feel like some of us might feel it more than the rest, uh
Hard to get and harder to keep
'Tween the sheets, scratch on my back, the mark of the beast
These hands hold you together, these eyes show you a better side
Can't forward the pressure
I'm in a class of my own, it's been a lonely semester
I bet
When you can't hold it together or can't cope with the pressure
I stand firm through the weather
Ten toes in the storm
Get rid of the ego before you tell me, "Be gone"
Gotta paint you this picture before you say you moved on
