

# Never Fold

TOBi

Back on me  
I hope you never turn your back on me  
I'm goin' further, baby (Further, baby)  
Ooh, back on you  
You know I'll never turn my back on you  
Let's take it further, yeah

Uh, because I love you, I will never fold  
Because I love you, I will never fold  
Had to say it twice just to let you know  
'Til it's set in stone, gotta let 'em go  
A bunch of stories that was never told  
But will you get the message, no Rosetta Stone, if I tell 'em all to you?  
Instead of cryin' tears and sheddin' those  
In the moments when you feel the most alone  
You should really feel connected 'cause we all been there before, uh  
Bench-pressin' all the weight off your chest and  
Get to press another plate, interestin'  
The introspective, uh, the hardly speak but listen  
The often too proud to seek assistance, listen  
I remember seein' peers reachin' higher peaks  
Askin' myself, "Hell, why compete?"  
But just like Homer and the Odyssey, I'm on a quest to findin' me  
Even if my legs get shaky, still, I feel the ground beneath  
The world'll judge you first based off appearance  
'Cause even if your heart pure, we see before we hear it, uh  
So hungry, I been eatin', so humble yet egocentric  
You been livin' for your friends, you too damn amigo-centric  
Took the knife out my back and started cuttin' through the tension  
'Cause when the family feud, it feel like jeopardy's expected  
So in essence, never let your fears take you on another route  
I'm the lead and the stunt double, fuck you talkin' 'bout?

Yeah, yeah, yeah, uh-huh  
Yeah, yeah, yeah, yeah, uh-huh  
That's just how it goes in the city where it snows  
Where you gotta bring the flame for the cold, never fold, ayy  
Yeah, yeah, yeah, yeah, uh-huh  
Yeah, yeah, yeah, yeah, uh-huh  
That's just how it goes in a world full of woes  
Where you gotta take the highs with lows, never fold

Represent (Gotta represent), uh-huh  
I gotta represent (Gotta represent), uh-huh  
Show 'em where you comin' from (I gotta represent, I gotta represent, show 'em where you comin' from)  
I gotta represent, I gotta rep... I gotta represent (Ayy, ayy)  
Gotta represent (Gotta represent), uh-huh  
I gotta represent (Gotta represent), uh-huh  
Show 'em where you comin' from (I gotta represent, I gotta represent, yeah, yeah)  
Show 'em where you comin' from (I gotta represent, I gotta rep... I gotta represent, ayy)  
I gotta represent

Uh, holdin' notes like they forgot to breathe  
Can't stop 'til our opps is obsolete

We made fan club presidents out of nonbelievers  
I mean, I seen some scenes you would not believe  
Shawty's lyin' on the D, I be like, "What's the reason?"  
If we ain't talkin' sloppy, ain't no toppin' me then  
Jimmy told me everybody love a winner  
Just ensure that you winnin' for the figure in the mirror  
We in a race for the distance, ain't keepin' pace with the sprinters  
Can't be a slave to opinions or be afraid of the instinct  
It's the truth still  
What's a highlight to a blooper in a news reel?  
Love to the role models in my real life  
The Phil Jackson, Uncle Phil types  
That make sure that our wills right  
My back strong, I been deadliftin' weight  
I dumped it off on the pier like  
You say it's heavy, but it's real light  
This from my lips to God's ears  
My dog said, "You gon' be C-4 before you see four in dog years"  
I said, "Aw yeah"  
Took a leap of faith and tell 'em, "All clear," aw yeah  
Look, bro said, "You're the GOAT, better rap like it"  
Mom said, "You a king, better act like it"  
We ain't never goin', ayy  
We ain't never goin' down like the gas prices  
Rubber band in my hand, I'ma snap like it  
Ayy, what would possess you to act like this? (What?)

Hey, I gotta represent (Gotta represent), uh-huh  
Gotta represent (Gotta represent), uh-huh  
Show 'em where you comin' from (I gotta represent, I gotta represent)  
I gotta represent, I gotta rep... I gotta represent (Ayy, ayy)  
Gotta represent (Gotta represent), uh-huh  
Gotta represent (Gotta represent), uh-huh  
Show 'em where you comin' from (I gotta represent, I gotta represent, yeah,  
yeah)  
Show 'em where you comin' from (I gotta represent, I gotta rep... I gotta re  
present, yeah)  
Ayy, show 'em where you comin' from (I gotta...)

Back on me (Oh)  
You know I'll never turn my back on you (Oh yeah)  
You know I'll never turn my back on you (Yeah)  
Back on you  
Back on me  
I hope you never turn your back on me  
Let's take it further, baby
