

# Shot Me Down

TOBi

Tired

Icarus, them wings'll take you higher  
Moving off the fuel of my desire  
Cupid load the Uzi up and fire

Got them wings from my father figures  
They would always tell me to fly high (So high)  
It's gon' feel like Poseidon hit you  
If you ever let a young man go dive  
We ain't scared to fly, we scared to dive (Deeper, deeper)  
We ain't scared of heights, we scared of depth  
Hmmm, fear of the unknown  
Fear that history repeats itself  
Fear that everybody's all for themselves  
I know you want me, don't be scared to admit that's a fact  
You running up and down just to see who got your back  
I tell you all my secrets when we're all alone  
But it's fact that you act like it's always an act  
When we behind your back and that's why I be so

Tired

Icarus, them wings'll take you higher  
Moving off the fuel of my desire  
Cupid load the Uzi up and fire

Tired

Icarus, them wings'll take you higher  
Moving off the fuel of my desire  
Cupid load the Uzi up and fire (Shot me down)

Young boys put feelings in a jar  
Concealed from the real to remove from the heart  
I'm too grown to be frontin' when I'm feelin' Michael Ealy  
Actin' like it really ain't appealing when you are  
Ducking and dodging your feelings  
'Cause these niggas movin' reptilian  
What good is a million one night stands  
When I got this one in a million with me now?  
Her eyes, that's how she caught me  
Surprise is how she caught me  
Baby, you're authentic, I put my all in it  
Love is that hole we made, in hopes one day  
We both gon' fall in it now

'Bout time I feel it, 'bout time I feel it  
'Bout time I feel it, baby, 'bout time I feel it  
'Bout time I feel it, baby 'bout time I feel it  
'Bout time I feel it, baby  
'Bout time you shot me out the sky

Tired

Icarus, them wings'll take you higher  
Moving off the fuel of my desire  
Cupid load the Uzi up and fire

Tired

Icarus, them wings'll take you higher  
Moving off the fuel of my desire  
Cupid load the Uzi up and fire (Shot me down, shot me down)

Yeah  
Shot me down  
Shot me down, mmh  
Shot me down, mmh  
Shot me down
