I still burn

Tobias Regner

I canOt say
I feel allright
I canOt say
IOm sleeping through the night
I canOt say
I havenOt thought about you - about you
You have always had a way
of seeing through the crazy things I say
Like IOm better off without you
but without you the truth is

I still burn like the sun raging fire in my blood IDm tired of living in a lie I still crash at the thought that I used to be the beat of your heart Oh Baby it hurts Cause I still burn - I still burn

I remember when the lights went out And the world forgot to turn around And everything was closing in on me [] on me I swore that I would make it through I wouldn't hit the ground because of you That was a promise I couldnDt keep can't you see

I still burn like the sun raging fire in my blood IDm tired of living in a lie I still crash at the thought that I used to be the beat of your heart Oh Baby it hurts Cause I still burn - I still burn

Cause I still burn

At the mention of your name And the picture of your face the heat I canDt escape

I still burn like the sun raging fire in my blood

I still crash at the thought that I used to be the beat of your heart Oh Baby it hurts

Oh baby it hurts Cause I still burn I burn Cause I still burn.
