

## Haggard, Hank & Her

Toby Keith

Whiskey knows my weakness  
Bartender knows my pain  
My heart knows I'm hurtin'  
And the barstool knows my name

Disgust knows I'm melting  
The devil knows my game  
The good Lord knows I'm lonely  
And the jukebox knows no shame

Nobody makes me cry, nobody gets me high  
Nobody says goodbye and takes me back in time  
To the place that we most love  
Nobody thrills me, nobody chills me  
Nobody kills me  
Like Haggard, Hank and her

It's misery and gin  
Like a whippoorwill I'm too blue to fly  
What I wouldn't give, my baby just walked in  
[?] love song I could cry

Nobody makes me cry, nobody gets me high  
Nobody says goodbye and takes me back in time  
To the place that we most love  
Nobody thrills me, nobody chills me  
Nobody kills me  
Like Haggard, Hank and her

Oh nobody kills me  
Like Haggard, Hank and her
