

# I Got It for You Girl

Toby Keith

C'mon baby lay back down  
You don't have to leave right now  
Anything you got downtown...can wait

I love those high heel shoes  
Everything looks good on you  
You make it look brand new...everyday

I've got it, in a bad way  
I wanna kiss your sweet face  
And lay like this forever  
I need you, to need me  
Complete my world  
I got it for you girl

Baby I can hear your breathe  
Whisper softly on my chest  
And I can feel your sweat...all over me

The sheets stuck to your skin  
You give me that want to grin  
Baby I want to...again

I've got it, in a bad way  
I wanna kiss your sweet face  
And lay like this forever  
I need you, to need me  
Complete my world  
I got it for you girl

Everything you dreamed of  
Just lay right here and sleep on  
Never gonna have to want again  
I got it for you girl  
Oh I need you, to need me  
Complete my world  
I got it for you  
Wanna give it to you  
I got it for you girl
