

# Missing Me Some You

Toby Keith

Midnight in the desert  
So far away  
It's a fingernail moon  
Dancing through the milky way  
Stars down in dixie  
Look the same way here  
And I got your picture  
Stuffed down in my battle gear

I could sing that song  
You know the one that drives you wild  
And close my eyes and dream  
That I can kiss my baby's smile

Even the man in the moon  
Is singing the blues  
Hope you still love me baby  
I'm missing me some you

When your head hits the pillow  
To pray for my soul  
That's when your little soldier  
Goes out on patrol  
Never thought when I kissed you  
Goodbye in tennessee  
That I'd ever be lonely  
But I'm about as lonely as one man can be

I could sing that song  
You know the one that drives you wild  
I could close my eyes and dream  
That I can kiss my baby's smile

Even the man in the moon  
Is singing the blues  
Hope you still love me baby  
I'm missing me some you

I miss you baby

I could sing that song  
You know the one that drives you wild  
I can close my eyes and dream  
I can kiss my baby's smile

Even the man in the moon  
Is singing the blues  
Hope you still love me baby  
Cause I'm missing me some you  
Oh, I hope you still love me baby  
Cause I'm missing me some you
