

## Old School

Toby Keith

Yeah back in the high school, yeah they're so cool  
Letterman jackets in the parking lot  
Dragging on a Camel light, back behind the Five and Dime  
Praying that they never get caught  
Everybody's gonna fish fry Saturday night  
Cuz if you call one, gotta call 'em all  
Cruising down the main street, driving through the Dairy Queen  
Ain't got a Wal-Mart, ain't got a mall

We're old school, small town sticking around  
Just like folks used to, good ol' boys and girls  
Just falling in love, living the life, yeah  
Middle of nowhere feels about right  
Keeping it old school, just the way we like

Married by 19, two pawn shop rings  
Ain't a big city, but it sure is nice  
Blue collar, six pack, work hard, laid back  
Sitting on the front porch, drop on by  
Picking on a six string, living on a shoestring  
Ain't got much, but we don't care  
Needle on a record don't get any better  
Like whoa baby, we're halfway there

We're old school, small town sticking around  
Just like folks used to, good ol' boys and girls  
Just falling in love, living the life, yeah  
Middle of nowhere feels about right  
Keeping it old school, just the way we like

Everybody say old school, small town sticking around  
Just like folks used to, good ol' boys and girls  
Just falling in love, living the life, yeah  
Middle of nowhere feels about right  
Keeping it old school, just the way we like

Yeah kicking it old school, it's a small town sticking around  
Just like folks used to, good ol' boys and girls  
Just falling in love, living the life, yeah  
Middle of nowhere feels about right  
Keeping it old school, just the way we like

Old school
