After All

Toby Lightman

For once or twice
Maybe just maybe I'll get the first bite
Won't that be nice

I know it's not you
To ever say baby, I messed up, its true
But no that's not you

Banging our heads on the wall
Bracing for impact each time that we fall

I love you most after all
More than my heart and more than my soul
I love you most after all
More than myself
More than my health
I love you most after all

Swallow your pride
I won't tell a soul that you gave up your side
And opened up wide
Put down your sword
I'll do the same cause we both can't afford
To go through life bored

Banging our heads on the wall
Bracing for impact each time that we fall

I love you most after all
More than my heart and more than my soul
I love you most after all
More than myself
More than my health
I love you most after all

Won't it feel nice
When you hand me a slice of the pie
Oh
You're hearts the key so please
Don't dress it up in disguise
A word to the wise

I love you most after all
More than my heart and more than my soul
I love you most after all
I'll take the blame, when you make the call
I love you most after all
More than myself
More than my health
I love you most after all
I love you most after all
