

## At Christmas

Toby Lightman

It's my favorite time of year  
Doorbell's ringing everybody's here  
Barely any room in the dining room, tonight

Pecan pie, better warm it up  
Bubbles flowing, better fill your cup  
Love and laughter, up to the rafters, all right  
No place that I'd rather be  
Than with my friends my family

'Cause All the lights are so much brighter  
Being with the ones you love by the fire  
Nothing is better than all of us together at Christmas  
Snow is falling, my heart is singing  
Here's a toast to the joy it's bringing  
Nothing is better than all of us together at Christmas

You can feel it everywhere you go  
The whole town's wrapped up bow  
It's the best kind of living, when everybody's giving a smile  
No place that I'd rather be  
Than with my friends my family
