

Holiday Lights

Toby Lightman

Every year they come around
Spreading cheer down on the ground
Make everywhere I go
A starry night show

Through the windows on the trees
Candy for my eyes to see
Oh how they bring a smile
I feel like a little child
Sitting on top of the world

On this holiday lights will shine my way
Coming down from above
Giving me all their love
On this holiday lights are on display
Falling down from the sky
Giving us holla holiday lights

Up and down the avenue
I see red, green, white and blue
Just like a rainbow
A gift everybody knows

I got groove yeah I got beat
When I got lights down on the street
Twisting the night away
How I wish everyday
I'd be the happiest girl

On this holiday lights will shine my way
Coming down from above
Giving me all their love
On this holiday lights are on display
Falling down from the sky
Giving us holla holiday lights

How do they get us walkin out here in the cold
How do they light up wonderlands made out of snow
So magical
Why do they have to go

On this holiday
I hope those lights they stay
Coming down from above
Giving us so much love
